5th Annual TMII Symposium
July 24, 2015

Registration now open
For details: https://tmii.mssm.edu/symposium/2015/
Abstract deadline: July 1, 2015

Featured Speaker:
Matthias Stuber, PhD
Professor, Center for Biomedical Imaging
University Hospital of Lausanne (CHUV)
Title: Recent Advances in Cardiovascular MRI

Matthias Stuber, PhD, is Full Professor at the University of Lausanne, and director of the Center for Biomedical Imaging, housed in Radiology at the University Hospital (CHUV) in Lausanne, Switzerland. Dr. Stuber studied electrical engineering at the ETH Zurich, where he obtained his PhD on MR myocardial tagging. From 1997-2002, he worked at the Beth Israel Deaconess Medical Center in Boston, both as an industry scientist and Officer at Harvard Medical School. This led to the first international multicenter trial on coronary MRA published in The New England Journal of Medicine.

In 2002, he joined the faculty of Johns Hopkins in Baltimore, where he advanced to Full Professor and got tenure. After 13 years in the US, Matthias Stuber returned to his native Switzerland. He has authored more than 160 original articles focused on translational cardiovascular MRI to answer to timely and clinically relevant questions. Matthias was a grant reviewer for NIH, chair of an AHA study section, is currently a board member of ISMRM and a newly elected executive board member of SCMR. He was the 2014 president of the MRA Club, which held its annual scientific meeting in Rome, Italy. He is a recipient of the ISMRM Fellow Award and his mentees have won many international distinctions. Matthias serves on the editorial board of many leading journals.
