## 5th Annual TMII Symposium

### July 24, 2015

Registration now open

For details: <https://tmii.mssm.edu/symposium/2015/>

Abstract deadline: June 26, 2015

## Featured Speaker:

Richard L. Ehman, MD

Professor of Radiology, Mayo Clinic

Title: *Magnetic Resonance Elastography: A New Touch in Medical Imaging*

Richard L. Ehman, M.D., is Professor of Radiology at the Mayo Clinic and an Emeritus member of the Mayo Clinic Board of Trustees. His research program is focused on developing new imaging technologies. He holds more than 40 patents and many of these inventions are widely used in medical care.

He has served as chair of the Radiology and Nuclear Medicine Study Section of the National Institutes of Health (NIH), as a member of the Advisory Council of the National Institute of Biomedical Imaging and Bioengineering of the NIH, and as a member of the Council of Councils of the NIH. Dr. Ehman was awarded the Gold Medal of the International Society for Magnetic Resonance in Medicine in 1995 for his research contributions and the Outstanding Researcher Award of the Radiological Society of North America in 2006. He was elected to the *Institute of Medicine* of the National Academies of Science in 2010.

Dr. Ehman has served as president of many professional organizations, including the International Society for Magnetic Resonance in Medicine in 2002-03, the Academy of Radiology Research in 2012-14, and the Society for Body Computed Tomography and Magnetic Resonance in 2013-14. He currently serves as Chair of the Board of Directors of the Radiological Society of North America (RSNA) and will be president of the RSNA in 2017.
